

Mary Mpoyo

Houston, TX | marympoyol@gmail.com | github.com/marympoyol

PROFILE

Frontend-focused Computer Science student with experience building responsive, user-centered interfaces using React, JavaScript, Tailwind CSS, Firebase, and Flask. Interested in front-end engineering internships where I can design polished experiences, ship maintainable UI, and keep growing through hands-on product work.

PROJECTS

Arcoria

React | JavaScript | Firebase | Vite

- Live Demo: [arcoria-by-mary.vercel.app](#) | GitHub: [github.com/marympoyol/Arcoria](#)
- Engineered a scalable React learning platform utilizing component libraries and Firebase, enabling users to organize tutorials into structured skill paths while tracking progress effectively.
- Crafted dynamic front-end workflows with JavaScript and Vite, implementing responsive layouts, state-driven views, and seamless user navigation.
- Integrated Firebase-backed data handling across core user flows, transforming a hackathon concept into a polished live demo with a clear visual learning experience.

NBA Player Trend Analyzer

Python | Flask | pandas | nba_api

- Live Demo: [nbaplayertrendanalyzer.vercel.app](#) | GitHub: [github.com/marympoyol/nbaplayertrendanalyzer](#)
- Developed an interactive NBA player trend dashboard utilizing Python, Flask, and pandas, enhancing data visualization and user engagement through clear performance metrics.
- Leveraged nba_api to extract game-log data and surface points, rebounds, and assists trends, resulting in comprehensive scouting reports with readable dashboard output.
- Structured the interface and data flow to improve accessibility and presentation of player performance insights across the application.

Portfolio Website

HTML | Tailwind CSS | JavaScript

- Live Demo: [portfolio-marympoyo.vercel.app](#) | GitHub: [github.com/marympoyol/Portfolio](#)
- Engineered a responsive portfolio website leveraging HTML, Tailwind CSS, and JavaScript, effectively showcasing projects, technical skills, and resume content with a focus on UI/UX design.
- Designed prototypes using Figma and implemented mobile navigation, dark mode, and seamless resume/contact workflows to enhance usability across both desktop and mobile platforms.
- Iterated on layout and interaction details to create a more polished, consistent, and visually engaging front-end presentation.

SKILLS

Languages: JavaScript, Python, HTML/CSS, SQL

Frameworks & Tools: React, Tailwind CSS, Firebase, Flask, Vite, Figma, Git/GitHub, Excel, VS Code

EDUCATION

Texas Southern University

B.S. in Computer Science

Houston, TX
Expected 2027

Relevant Coursework: Programming I & II, Data Structures, Database Systems, Discrete Mathematics

ACTIVITIES AND LEADERSHIP

Tiger Computer Science Society

Member

Houston, TX
Aug 2024 - Present

- Attend technical workshops and collaborate with peers on coding, problem-solving, and career development topics.

Student Athlete

Women's Basketball Player

Houston, TX
Aug 2021 - May 2023

- Built discipline, teamwork, and adaptability in high-pressure environments through competition, training, and collaboration.

WORK EXPERIENCE

Sales Associate

Uptown Cheapskate

Boise, ID
May 2022 - Sep 2022

- Worked with point-of-sale and inventory systems to keep transactions and merchandise information accurate, building comfort with digital tools and detail-oriented workflows.
- Resolved customer needs quickly in a fast-paced setting, strengthening communication, adaptability, and a practical approach to improving user experience.

Front Desk Receptionist

Better Choice Care

Boise, ID
Apr 2020 - Aug 2020; Jan 2021 - Jul 2021

- Maintained schedules, records, and front desk workflows using Excel and digital tools, strengthening data accuracy, documentation, and organization in a fast-moving environment.
- Supported staff and visitors by communicating clearly and managing multiple information flows at once, reinforcing the user-centered mindset and reliability needed on technical teams.
