

Mary Mpoyo

Houston, TX | marympoyo1@gmail.com | github.com/marympoyo1

PROFILE

Computer Science student at Texas Southern University with hands-on experience building responsive web applications and user-focused interfaces using JavaScript, React, Tailwind CSS, HTML/CSS, Flask, Firebase, and APIs. Strong interest in frontend software engineering, visual product design, and turning complex ideas into clear, intuitive experiences. Seeking a frontend software engineering internship where I can contribute, keep learning, and grow as a developer.

EDUCATION

Texas Southern University, *B.S. in Computer Science* Expected May 2027
Houston, TX
Relevant Coursework: Data Structures, Computer Organization, Computer Networks, Database Management Systems, Operating Systems, Software Engineering, Theory of Computation, Advanced OOP in C++

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS, Python, Java, C++
Frameworks/Libraries: React, Tailwind CSS, Flask, Firebase, pandas
Tools/Platforms: Git, GitHub, VS Code, Vercel, Figma, APIs, nba_api

PROJECTS

Arcoria React | JavaScript | Firebase | Vite
Live Demo: arcoria-by-mary.vercel.app | GitHub: github.com/marympoyo1/Arcoria

- Engineered a scalable React learning platform using Firebase, enabling users to organize tutorials into structured skill paths while tracking progress effectively.
- Crafted dynamic front-end workflows with JavaScript and Vite, implementing responsive layouts and intuitive navigation patterns across the product.
- Integrated Firebase-backed data handling in core user flows, turning a hackathon concept into a polished live demo with a clear visual learning experience.

NBA Player Trend Analyzer Python | Flask | pandas | nba_api
Live Demo: nbaplayertrendanalyzer.vercel.app | GitHub: github.com/marympoyo1/nbaplayertrendanalyzer

- Developed an interactive NBA player trend dashboard using Python, Flask, and pandas, improving data visualization through clear player performance reporting.
- Leveraged nba_api to extract and process game-log data, surfacing points, rebounds, and assists trends in a readable scouting-style interface.
- Structured the application for efficient data processing and accessible dashboard presentation, making player performance insights easier to understand.

Portfolio Website HTML | Tailwind CSS | JavaScript
Live Demo: portfolio-marympoyo.vercel.app | GitHub: github.com/marympoyo1/Portfolio

- Engineered a responsive portfolio website using HTML, Tailwind CSS, and JavaScript to showcase projects, technical skills, and resume content with a strong UI focus.
- Designed prototypes in Figma and implemented mobile navigation, dark mode, and resume/contact workflows to improve usability across desktop and mobile devices.
- Maintained the site through iterative UI refinements to improve clarity, interaction, and overall presentation.

ACTIVITIES & LEADERSHIP

Tiger Computer Science Society **Houston, Texas**
Aug 2024 - Present
Member

- Attend technical workshops, networking events, and peer discussions focused on software development, problem-solving, and industry trends.

Student Athlete **Houston, Texas**
Aug 2021 - May 2023
Women's Basketball Player

- Built discipline, adaptability, and teamwork through high-pressure competition and structured performance tracking.

WORK EXPERIENCE

Front Desk Receptionist, Better Choice Care Boise, ID | Apr 2020 - Aug 2020; Jan 2021 - Jul 2021

- Managed scheduling, phone support, and organized records in a time-sensitive environment, strengthening data accuracy, documentation, and multitasking.
- Balanced staff and visitor needs while staying organized under pressure, building the communication and problem-solving skills useful in technical teams.

Sales Associate, Uptown Cheapskate

Boise, ID | May 2022 - Sep 2022

- Supported daily operations and customer needs in a fast-paced environment while building reliability, attention to detail, and teamwork.
- Communicated clearly with customers and coworkers while keeping information organized, reinforcing a strong user-centered mindset.
